

Turn each lesson into a game habit

Thinking And Training

THE IDEA

Study becomes useful when it changes decisions during play. After a lesson, choose one small habit to test in your next game. Reviewing whether you used it makes the learning observable and prevents endless passive reading.

WORKED EXAMPLE

After studying loose pieces, add a brief scan of undefended pieces after every opponent move. Do not try to apply twenty new rules at once. A single dependable habit can prevent several types of tactical error.

TRY IT BEFORE READING ON

What should you write after your next game?

ANSWER AND REASONING

One moment where the habit helped or where you forgot it, plus the consequence. If it was too slow or vague, simplify the habit and test it again.

TAKE THIS INTO YOUR NEXT GAME

Finish a lesson with one action you can use at the board.
