

Mate in one: Black, move 35

Mate in one

Black to move

Previous move: 35.Nc3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

35...c5#

35...c5# Mate: pawn on c5 gives check; White has no legal reply.

The line ends in checkmate against the king on d4. Material gain is unnecessary once no legal defense exists.

CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Pawn on c5. The king is in check and the position has zero legal replies.

CARRY THE IDEA INTO YOUR GAMES

A checking piece next to the king must be protected unless the king cannot capture it for another legal reason.

WHAT THIS POSITION TEACHES

Checkmate is a complete restriction of the enemy king. Find a legal check, then prove there is no king escape, capture of the checker, or interposition.

HOW TO LOOK

Inspect the king's flight squares before choosing a check. A protected queen or a distant rook may cover the last escape in different ways.

The defending king is on d4. Geometrically undefended: rook on f2. Check for tactical protection.
