

# Mate in one: White, move 32

Mate in one

## White to move

Previous move: 31...Nb5. Gold borders mark its start and finish.

## WORKED CONTINUATION - COVER THIS SECTION FIRST

### 32. Rd8#

**32.Rd8#** Mate: rook on d8 gives check; Black has no legal reply.

The line ends in checkmate against the king on f8. Material gain is unnecessary once no legal defense exists.

## CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Rook on d8. The king is in check and the position has zero legal replies.

## CARRY THE IDEA INTO YOUR GAMES

A checking piece next to the king must be protected unless the king cannot capture it for another legal reason.

## WHAT THIS POSITION TEACHES

Checkmate is a complete restriction of the enemy king. Find a legal check, then prove there is no king escape, capture of the checker, or interposition.

## HOW TO LOOK

Inspect the king's flight squares before choosing a check. A protected queen or a distant rook may cover the last escape in different ways.

The defending king is on f8. Geometrically undefended: rook on b4. Check for tactical protection.
