24...Qxc1+ Check restricts White to 2 legal replies here. From c1 it attacks king on g1 and bishop on g5. Recorded reply: **25.Bxc1**.

25...Rd1+ Check restricts White to 1 legal reply here. From d1 it attacks king on g1 and bishop on c1. Recorded reply: **26.Ne1**.

26...Rxe1# Mate: rook on e1 gives check; White has no legal reply.

The line ends in checkmate against the king on g1. Material gain is unnecessary once no legal defense exists.

CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Rook on e1. The king is in check and the position has zero legal replies.

CARRY THE IDEA INTO YOUR GAMES

A flight square, an interposition, or a countercheck may refute an apparent mate. Check all three before sacrificing material.

WHAT THIS POSITION TEACHES

A king trapped behind its own pawns may have no flight square when a rook or queen reaches its back rank. The entry square and its defenders are critical.

HOW TO LOOK

Inspect the king's pawn shelter, then find how a heavy piece can enter the last rank or remove its defender.

The defending king is on g1. Absolute pin: pawn on f2.
