

Anastasia mating nets: Black, move 36

Anastasia mating nets

Black to move

Previous move: 36.Kh3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

36...Rh1#

36...Rh1# Mate: rook on h1 gives check; White has no legal reply.

The line ends in checkmate against the king on h3. Material gain is unnecessary once no legal defense exists.

CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Rook on h1. The king is in check and the position has zero legal replies.

CARRY THE IDEA INTO YOUR GAMES

The knight is often a supporting piece rather than the final checker. Do not overlook its quiet control of escape squares.

WHAT THIS POSITION TEACHES

An Anastasia-type net uses a knight to restrict king escapes while a rook or queen checks along an edge file. Removing a pawn shield can be the crucial preparation.

HOW TO LOOK

Locate the knight's controlled flight squares and the heavy piece's checking line. Follow how the combination opens that line.

The defending king is on h3. Geometrically undefended: knight on d6. Check for tactical protection.
