

Arabian mating nets: White, move 30

Arabian mating nets

White to move

Previous move: 29...d3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

30. Qxh7+ Rxh7 31. Rxh7#

30.Qxh7+ Check restricts Black to 1 legal reply here. From h7 it attacks king on h8 and rook on g7. Recorded reply: **30...Rxh7.**

31.Rxh7# Mate: rook on h7 gives check; Black has no legal reply.

The line ends in checkmate against the king on h8. Material gain is unnecessary once no legal defense exists.

CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Rook on h7. The king is in check and the position has zero legal replies.

CARRY THE IDEA INTO YOUR GAMES

A mating label describes a recurring arrangement, not a substitute for checking the exact legal defenses on this board.

WHAT THIS POSITION TEACHES

In an Arabian-type net a rook and knight cooperate near a corner. One piece gives check while the other protects the rook or controls escape squares.

HOW TO LOOK

Look for a cornered king, a rook entry, and a knight square that links protection with restriction.

The defending king is on h8. Absolute pin: pawn on h7.
