

Arabian mating nets: White, move 62

Arabian mating nets

White to move

Previous move: 61...h3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

62. Nf3+ Kh1 63. Rg1#

62.Nf3+ Check restricts Black to 1 legal reply here. Recorded reply: **62...Kh1**.

63.Rg1# Mate: rook on g1 gives check; Black has no legal reply.

The line ends in checkmate against the king on h1. Material gain is unnecessary once no legal defense exists.

CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Rook on g1. The king is in check and the position has zero legal replies.

CARRY THE IDEA INTO YOUR GAMES

A mating label describes a recurring arrangement, not a substitute for checking the exact legal defenses on this board.

WHAT THIS POSITION TEACHES

In an Arabian-type net a rook and knight cooperate near a corner. One piece gives check while the other protects the rook or controls escape squares.

HOW TO LOOK

Look for a cornered king, a rook entry, and a knight square that links protection with restriction.

The defending king is on h2. Geometrically undefended: rook on d8. Check for tactical protection.
