

# Arabian mating nets: White, move 24

Arabian mating nets

White to move

Previous move: 23...Rxf5. Gold borders mark its start and finish.

**WORKED CONTINUATION - COVER THIS SECTION FIRST**

## 24. Qxh7+ Qxh7 25. Rxh7#

**24.Qxh7+** Check restricts Black to 1 legal reply here. From h7 it attacks king on h8, queen on f7 and knight on g6.  
Recorded reply: **24...Qxh7**.

**25.Rxh7#** Mate: rook on h7 gives check; Black has no legal reply.

The line ends in checkmate against the king on h8. Material gain is unnecessary once no legal defense exists.

### CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Rook on h7. The king is in check and the position has zero legal replies.

### CARRY THE IDEA INTO YOUR GAMES

A mating label describes a recurring arrangement, not a substitute for checking the exact legal defenses on this board.

### WHAT THIS POSITION TEACHES

In an Arabian-type net a rook and knight cooperate near a corner. One piece gives check while the other protects the rook or controls escape squares.

### HOW TO LOOK

Look for a cornered king, a rook entry, and a knight square that links protection with restriction.

The defending king is on h8. Absolute pin: pawn on h7.
