

# Arabian mating nets: Black, move 48

Arabian mating nets

## Black to move

Previous move: 48.d7. Gold borders mark its start and finish.

## WORKED CONTINUATION - COVER THIS SECTION FIRST

### 48...Rh2#

**48...Rh2#** Mate: rook on h2 gives check; White has no legal reply.

The line ends in checkmate against the king on h1. Material gain is unnecessary once no legal defense exists.

## CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Rook on h2. The king is in check and the position has zero legal replies.

## CARRY THE IDEA INTO YOUR GAMES

A mating label describes a recurring arrangement, not a substitute for checking the exact legal defenses on this board.

## WHAT THIS POSITION TEACHES

In an Arabian-type net a rook and knight cooperate near a corner. One piece gives check while the other protects the rook or controls escape squares.

## HOW TO LOOK

Look for a cornered king, a rook entry, and a knight square that links protection with restriction.

The defending king is on h1. Look for a defender that can be displaced or overloaded.
