

Arabian mating nets: Black, move 40

Arabian mating nets

Black to move

Previous move: 40.e7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

40...Nxf3+ 41. Kh1 Rd1+ 42. Bg1 Rxf1#

40...Nxf3+ Check restricts White to 2 legal replies here. From f3 it attacks king on h2 and bishop on d4. Recorded reply: **41.Kh1**.

41...Rd1+ Check restricts White to 1 legal reply here. From d1 it attacks king on h1 and bishop on d4. Recorded reply: **42.Bg1**.

42...Rxf1# Mate: rook on g1 gives check; White has no legal reply.

The line ends in checkmate against the king on h1. Material gain is unnecessary once no legal defense exists.

CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Rook on g1. The king is in check and the position has zero legal replies.

CARRY THE IDEA INTO YOUR GAMES

A mating label describes a recurring arrangement, not a substitute for checking the exact legal defenses on this board.

WHAT THIS POSITION TEACHES

In an Arabian-type net a rook and knight cooperate near a corner. One piece gives check while the other protects the rook or controls escape squares.

HOW TO LOOK

Look for a cornered king, a rook entry, and a knight square that links protection with restriction.

The defending king is on h2. Absolute pin: pawn on g2.
