

# Hook mating nets: White, move 34

Hook mating nets

White to move

Previous move: 33...Rxe5. Gold borders mark its start and finish.

**WORKED CONTINUATION - COVER THIS SECTION FIRST**

## 34. Rg8#

**34.Rg8#** Mate: rook on g8 gives check; Black has no legal reply.

The line ends in checkmate against the king on g7. Material gain is unnecessary once no legal defense exists.

### CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Rook on g8. The king is in check and the position has zero legal replies.

### CARRY THE IDEA INTO YOUR GAMES

Recount the king's legal replies after each move. A changed pawn placement can destroy an otherwise familiar mating pattern.

### WHAT THIS POSITION TEACHES

A hook-type mating net combines rook pressure with knight control and supporting pawn geometry. The supporting pieces can matter more than the apparent value of a sacrifice.

### HOW TO LOOK

Identify the final checking line and then trace which friendly pieces protect the attacker and control the king's exits.

The defending king is on g7. Geometrically undefended: knight on f3. Check for tactical protection.
