

Hook mating nets: Black, move 32

Hook mating nets

Black to move

Previous move: 32.Rxf7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

32...Rxe3+ 33. c3 Rxc3#

32...Rxe3+ Check restricts White to 1 legal reply here. The move also takes the pawn on e3. Recorded reply: **33.c3**.

33...Rxc3# Mate: rook on c3 gives check; White has no legal reply.

The line ends in checkmate against the king on b3. Material gain is unnecessary once no legal defense exists.

CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Rook on c3. The king is in check and the position has zero legal replies.

CARRY THE IDEA INTO YOUR GAMES

Recount the king's legal replies after each move. A changed pawn placement can destroy an otherwise familiar mating pattern.

WHAT THIS POSITION TEACHES

A hook-type mating net combines rook pressure with knight control and supporting pawn geometry. The supporting pieces can matter more than the apparent value of a sacrifice.

HOW TO LOOK

Identify the final checking line and then trace which friendly pieces protect the attacker and control the king's exits.

The defending king is on b3. Absolute pin: pawn on e3.
