

Forks and double attacks: White, move 17

Forks and double attacks

White to move

Previous move: 16...Qe6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

17. d5 Qe5 18. dxc6

17.d5 The pawn moves from d4 to d5. From d5 it attacks queen on e6 and knight on c6. Recorded reply: **17...Qe5**.

18.dxc6 The pawn captures the knight on c6.

At the end, nominal material is White 31 / Black 28 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +3: the balance goes from +0 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Two attacked pieces do not guarantee a gain if the forking piece can be captured or one target moves with check.

WHAT THIS POSITION TEACHES

A fork attacks multiple targets at once. The combination works when the defender cannot save everything or generate a stronger forcing reply.

HOW TO LOOK

Look for checking forks first, then double attacks on queens, rooks, and undefended pieces. Follow the line until the material is actually collected.

The defending king is on g8. Look for a defender that can be displaced or overloaded.
