

Pins and pressure: White, move 38

Pins and pressure

White to move

Previous move: 37...Na4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

38. Bc4 Kg7 39. Bxd5

38.Bc4 The bishop moves from a6 to c4. Recorded reply: **38...Kg7**.

39.Bxd5 The bishop captures the knight on d5.

At the end, nominal material is White 10 / Black 8 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +3: the balance goes from -1 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A pinned piece can sometimes move along the line, capture the pinning piece, or answer with a forcing resource.

WHAT THIS POSITION TEACHES

A pin limits a piece because moving it exposes a more important target. A pin to the king restricts legality; a pin to another piece changes the practical cost of moving.

HOW TO LOOK

Trace the line through attacker, pinned piece, and rear target. Test whether the pinned piece is being counted as a defender it cannot really be.

The defending king is on g8. Geometrically undefended: knight on d5 and knight on a4. Check for tactical protection.
