

Pins and pressure: Black, move 19

Pins and pressure

Black to move

Previous move: 19.Bxd6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

19...Qxf3 20. Re8+ Kd7

19...Qxf3 The queen captures the bishop on f3. Recorded reply: **20.Re8+**.

20...Kd7 The king moves from c8 to d7. From d7 it attacks rook on e8 and bishop on d6.

At the end, nominal material is White 31 / Black 29 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +3:** the balance goes from -5 to -2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A pinned piece can sometimes move along the line, capture the pinning piece, or answer with a forcing resource.

WHAT THIS POSITION TEACHES

A pin limits a piece because moving it exposes a more important target. A pin to the king restricts legality; a pin to another piece changes the practical cost of moving.

HOW TO LOOK

Trace the line through attacker, pinned piece, and rear target. Test whether the pinned piece is being counted as a defender it cannot really be.

The defending king is on g1. Absolute pin: pawn on g2.
