

Pins and pressure: Black, move 28

Pins and pressure

Black to move

Previous move: 28.Qf4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

28...Bh6 29. Kb1 Bxf4

28...Bh6 The bishop moves from f8 to h6. Recorded reply: **29.Kb1**.

29...Bxf4 The bishop captures the queen on f4.

At the end, nominal material is White 16 / Black 23 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +9. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +9:** the balance goes from -2 to +7. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A pinned piece can sometimes move along the line, capture the pinning piece, or answer with a forcing resource.

WHAT THIS POSITION TEACHES

A pin limits a piece because moving it exposes a more important target. A pin to the king restricts legality; a pin to another piece changes the practical cost of moving.

HOW TO LOOK

Trace the line through attacker, pinned piece, and rear target. Test whether the pinned piece is being counted as a defender it cannot really be.

The defending king is on c1. Look for a defender that can be displaced or overloaded.
