

Pins and pressure: White, move 27

Pins and pressure

White to move

Previous move: 26...Kh8. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

27. Nf7+ Rxf7 28. Bxe6

27.Nf7+ Check restricts Black to 3 legal replies here. Recorded reply: **27...Rxf7**.

28.Bxe6 The bishop captures the pawn on e6. The changed line means the rook on h1 attacks the queen on h4.

At the end, nominal material is White 28 / Black 30 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by -2. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** -2: the balance goes from +0 to -2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A pinned piece can sometimes move along the line, capture the pinning piece, or answer with a forcing resource.

WHAT THIS POSITION TEACHES

A pin limits a piece because moving it exposes a more important target. A pin to the king restricts legality; a pin to another piece changes the practical cost of moving.

HOW TO LOOK

Trace the line through attacker, pinned piece, and rear target. Test whether the pinned piece is being counted as a defender it cannot really be.

The defending king is on h8. Geometrically undefended: knight on g6. Check for tactical protection.
