

Pins and pressure: White, move 18

Pins and pressure

White to move

Previous move: 17...Be4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

18. Qf7+ Kh7 19. Rf6 Bxf6 20. Qxd7

18.Qf7+ Check restricts Black to 1 legal reply here. From f7 it attacks king on g8 and bishop on e7. Recorded reply: **18...Kh7**.

19.Rf6 The rook moves from f1 to f6. Recorded reply: **19...Bxf6**.

20.Qxd7 The queen captures the queen on d7.

At the end, nominal material is White 24 / Black 22 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +4. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +4: the balance goes from -2 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A pinned piece can sometimes move along the line, capture the pinning piece, or answer with a forcing resource.

WHAT THIS POSITION TEACHES

A pin limits a piece because moving it exposes a more important target. A pin to the king restricts legality; a pin to another piece changes the practical cost of moving.

HOW TO LOOK

Trace the line through attacker, pinned piece, and rear target. Test whether the pinned piece is being counted as a defender it cannot really be.

The defending king is on g8. Geometrically undefended: rook on a8 and queen on d7. Check for tactical protection.
