

Skewers: White, move 38

Skewers

White to move

Previous move: 37...b5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

38. Rc8+ Kb7 39. Rxc3

38.Rc8+ Check restricts Black to 4 legal replies here. Recorded reply: **38...Kb7**.

39.Rxc3 The rook captures the bishop on c3.

At the end, nominal material is White 9 / Black 6 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +3: the balance goes from +0 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The defender may block, capture the attacker, or protect the rear piece while moving the front one. Alignment alone is not enough.

WHAT THIS POSITION TEACHES

A skewer puts the more important target in front. When that target moves, a piece behind it may be lost. Checks make the geometry especially forcing.

HOW TO LOOK

Search ranks, files, and diagonals where two enemy pieces line up. Calculate the first target's legal responses.

The defending king is on c6. Geometrically undefended: bishop on c3. Check for tactical protection.
