

Skewers: White, move 42

Skewers

White to move

Previous move: 41...Rd2. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

42. Rd8+ Kc6 43. Rxd2

42.Rd8+ Check restricts Black to 5 legal replies here. Recorded reply: **42...Kc6**.

43.Rxd2 The rook captures the rook on d2.

At the end, nominal material is White 11 / Black 8 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +5. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +5: the balance goes from -2 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The defender may block, capture the attacker, or protect the rear piece while moving the front one. Alignment alone is not enough.

WHAT THIS POSITION TEACHES

A skewer puts the more important target in front. When that target moves, a piece behind it may be lost. Checks make the geometry especially forcing.

HOW TO LOOK

Search ranks, files, and diagonals where two enemy pieces line up. Calculate the first target's legal responses.

The defending king is on d5. Geometrically undefended: rook on d2. Check for tactical protection.
