

Skewers: White, move 41

Skewers

White to move

Previous move: 40...Kf6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

41. Rf7+ Ke5 42. Rxf4

41.Rf7+ Check restricts Black to 2 legal replies here. Recorded reply: **41...Ke5**.

42.Rxf4 The rook captures the queen on f4.

At the end, nominal material is White 10 / Black 3 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +9. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +9: the balance goes from -2 to +7. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The defender may block, capture the attacker, or protect the rear piece while moving the front one. Alignment alone is not enough.

WHAT THIS POSITION TEACHES

A skewer puts the more important target in front. When that target moves, a piece behind it may be lost. Checks make the geometry especially forcing.

HOW TO LOOK

Search ranks, files, and diagonals where two enemy pieces line up. Calculate the first target's legal responses.

The defending king is on f6. Geometrically undefended: queen on f4. Check for tactical protection.
