

Skewers: Black, move 27

Skewers

Black to move

Previous move: 27.a3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

27...Rxc7 28. Qxc7 Rc8 29. Qxd6 Rxc1+

27...Rxc7 The rook captures the rook on c7. Recorded reply: **28.Qxc7**.

28...Rc8 The rook moves from b8 to c8. Recorded reply: **29.Qxd6**.

29...Rxc1+ Check restricts White to 1 legal reply here. The move also takes the rook on c1.

At the end, nominal material is White 19 / Black 20 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +2. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +2:** the balance goes from -1 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The defender may block, capture the attacker, or protect the rear piece while moving the front one. Alignment alone is not enough.

WHAT THIS POSITION TEACHES

A skewer puts the more important target in front. When that target moves, a piece behind it may be lost. Checks make the geometry especially forcing.

HOW TO LOOK

Search ranks, files, and diagonals where two enemy pieces line up. Calculate the first target's legal responses.

The defending king is on g1. Look for a defender that can be displaced or overloaded.
