

Skewers: White, move 35

Skewers

White to move

Previous move: 34...Kg7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

35. Rxh7+ Kf8 36. Rxb7

35.Rxh7+ Check restricts Black to 3 legal replies here. The move also takes the pawn on h7. Recorded reply: **35...Kf8**.

36.Rxb7 The rook captures the bishop on b7.

At the end, nominal material is White 16 / Black 15 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +4. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +4: the balance goes from -3 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The defender may block, capture the attacker, or protect the rear piece while moving the front one. Alignment alone is not enough.

WHAT THIS POSITION TEACHES

A skewer puts the more important target in front. When that target moves, a piece behind it may be lost. Checks make the geometry especially forcing.

HOW TO LOOK

Search ranks, files, and diagonals where two enemy pieces line up. Calculate the first target's legal responses.

The defending king is on g7. Geometrically undefended: bishop on b7 and rook on f2. Check for tactical protection.
