Discovered attacks

White to move

Previous move: 31...Kc7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

32. Ba5+ b6 33. Rxd1

32.Ba5+ Check restricts Black to 5 legal replies here. The changed line means the rook on f1 attacks the rook on d1. Recorded reply: **32...b6**.

33.Rxd1 The rook captures the rook on d1.

At the end, nominal material is White 21 / Black 17 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +5. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +5: the balance goes from -1 to +4. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on c7. Geometrically undefended: bishop on e5 and knight on e4. Check for tactical protection.
