Discovered attacks

Black to move

Previous move: 14.Rb1. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

14...Bc3+ 15. Ke2 Rxb1

14...Bc3+ Check restricts White to 4 legal replies here. The changed line means the rook on b8 attacks the rook on b1. Recorded reply: **15.Ke2**.

15...Rxb1 The rook captures the rook on b1.

At the end, nominal material is White 16 / Black 20 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +5. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +5: the balance goes from -1 to +4. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on e1. Geometrically undefended: knight on a7 and rook on h1. Check for tactical protection.
