Discovered attacks

Black to move

Previous move: 12.Nd5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

12...Nxd5 13. Bxd5 Bxh4

12...Nxd5 The knight captures the knight on d5. The changed line means the bishop on e7 attacks the bishop on h4. Recorded reply: **13.Bxd5**.

13...Bxh4 The bishop captures the bishop on h4.

At the end, nominal material is White 29 / Black 32 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +3:** the balance goes from +0 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on g1. Geometrically undefended: bishop on h4. Check for tactical protection.
