Discovered attacks

Black to move

Previous move: 47.f3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

47...d4+ 48. Kxd4 Bxa8

47...d4+ Check restricts White to 7 legal replies here. The changed line means the bishop on e4 attacks the rook on a8. Recorded reply: **48.Kxd4**.

48...Bxa8 The bishop captures the rook on a8.

At the end, nominal material is White 4 / Black 6 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +4. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +4:** the balance goes from -2 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on c3. Geometrically undefended: rook on a8. Check for tactical protection.
