Discovered attacks

White to move

Previous move: 24...Qxc5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

25. Nxf6+ gx6 26. Rxd7

25.Nxf6+ Check restricts Black to 3 legal replies here. From f6 it attacks king on g8 and rook on d7. Recorded reply: **25...gx6**.

26.Rxd7 The rook captures the rook on d7.

At the end, nominal material is White 24 / Black 20 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +5. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +5: the balance goes from -1 to +4. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on g8. Geometrically undefended: rook on a8 and queen on c5. Check for tactical protection.
