

# Discovered attacks: White, move 33

Discovered attacks

White to move

Previous move: 32...Ne6. Gold borders mark its start and finish.

**WORKED CONTINUATION - COVER THIS SECTION FIRST**

## 33. Nxf6+ gx f6 34. Rxc4

**33.Nxf6+** Check restricts Black to 4 legal replies here. The changed line means the rook on f4 attacks the rook on c4. Recorded reply: **33...gx f6**.

**34.Rxc4** The rook captures the rook on c4.

At the end, nominal material is White 9 / Black 7 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

### CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +3: the balance goes from -1 to +2. Count promotions and every recapture, not just the first gain.

### CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

### WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

### HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on g8. Geometrically undefended: knight on e6 and rook on c4. Check for tactical protection.
