Discovered attacks

Black to move

Previous move: 30.Rd1. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

30...Nf4+ 31. Bxf4 Rxd1

30...Nf4+ Check restricts White to 6 legal replies here. The changed line means the rook on d5 attacks the rook on d1. Recorded reply: **31.Bxf4**.

31...Rxd1 The rook captures the rook on d1.

At the end, nominal material is White 10 / Black 12 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +2. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +2:** the balance goes from +0 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on g2. Geometrically undefended: rook on d1. Check for tactical protection.
