

Discovered attacks: White, move 43

Discovered attacks

White to move

Previous move: 42...Rd3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

43. Qe8+ Bg8 44. Rxd3

43.Qe8+ Check restricts Black to 3 legal replies here. The changed line means the rook on g3 attacks the rook on d3. Recorded reply: **43...Bg8**.

44.Rxd3 The rook captures the rook on d3.

At the end, nominal material is White 19 / Black 15 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +5. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +5: the balance goes from -1 to +4. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on h8. Geometrically undefended: bishop on c4. Check for tactical protection.
