

Discovered attacks: White, move 37

Discovered attacks

White to move

Previous move: 36...Rc8. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

37. Nxe6+ fxe6 38. Rxc8

37.Nxe6+ Check restricts Black to 5 legal replies here. The changed line means the rook on c1 attacks the rook on c8. Recorded reply: **37...fxe6**.

38.Rxc8 The rook captures the rook on c8.

At the end, nominal material is White 15 / Black 13 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +3: the balance goes from -1 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on g7. Geometrically undefended: rook on c8 and knight on d7. Check for tactical protection.
