Discovered attacks

Black to move

Previous move: 22.Be7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

22...Nc5 23. Qb1 Qxe7

22...Nc5 The knight moves from d7 to c5. The changed line means the queen on b7 attacks the bishop on e7.
Recorded reply: **23.Qb1**.

23...Qxe7 The queen captures the bishop on e7.

At the end, nominal material is White 20 / Black 23 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +3:** the balance goes from +0 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on g1. Geometrically undefended: bishop on e7 and queen on d3. Check for tactical protection.
