Discovered attacks

White to move

Previous move: 22...Qh6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

23. Rg4+ hxg4 24. Qxh6 Rxf1+ 25. Kxf1

23.Rg4+ Check restricts Black to 10 legal replies here. The changed line means the queen on d2 attacks the queen on h6. Recorded reply: **23...hxg4**.

24.Qxh6 The queen captures the queen on h6. Recorded reply: **24...Rxf1+**.

25.Kxf1 The king captures the rook on f1.

At the end, nominal material is White 15 / Black 13 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +4. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +4: the balance goes from -2 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on g8. Geometrically undefended: rook on a8 and queen on h6. Check for tactical protection.
