Discovered attacks

Black to move

Previous move: 41.Rg5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

41...e4+ 42. Kc2 Rxc5

41...e4+ Check restricts White to 8 legal replies here. The changed line means the rook on b5 attacks the rook on g5. Recorded reply: **42.Kc2**.

42...Rxc5 The rook captures the rook on g5.

At the end, nominal material is White 5 / Black 8 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +5. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +5: the balance goes from -2 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on d3. Geometrically undefended: rook on g5 and knight on b1. Check for tactical protection.
