Discovered attacks

Black to move

Previous move: 33.Qxh7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

33...Nf6 34. Qf5 Qxd2

33...Nf6 The knight moves from d5 to f6. The changed line means the queen on d8 attacks the bishop on d2. Recorded reply: **34.Qf5**.

34...Qxd2 The queen captures the bishop on d2.

At the end, nominal material is White 14 / Black 17 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +3:** the balance goes from +0 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on b1. Geometrically undefended: queen on h7 and bishop on d2. Check for tactical protection.
