

Discovered attacks: White, move 33

Discovered attacks

White to move

Previous move: 32...Rd7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

33. Bc4 d5 34. Rxa8+

33.Bc4 The bishop moves from a6 to c4. The changed line means the rook on a1 attacks the rook on a8. Recorded reply: **33...d5**.

34.Rxa8+ Check restricts Black to 4 legal replies here. The move also takes the rook on a8.

At the end, nominal material is White 28 / Black 25 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +5. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +5: the balance goes from -2 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on g8. Geometrically undefended: rook on a8. Check for tactical protection.
