

Discovered attacks: White, move 35

Discovered attacks

White to move

Previous move: 34...Rxh6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

35. f6+ Rxf6 36. Qxd7

35.f6+ Check restricts Black to 7 legal replies here. The changed line means the queen on h3 attacks the queen on d7. Recorded reply: **35...Rxf6**.

36.Qxd7 The queen captures the queen on d7. From d7 it attacks rook on c8 and knight on d2.

At the end, nominal material is White 24 / Black 18 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +8. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +8: the balance goes from -2 to +6. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on g7. Geometrically undefended: queen on d7. Check for tactical protection.
