

# Discovered attacks: White, move 24

Discovered attacks

White to move

Previous move: 23...Qc7. Gold borders mark its start and finish.

**WORKED CONTINUATION - COVER THIS SECTION FIRST**

**24. Rxb7 Qxb7 25. Nf6+ Bxf6 26. Bxb7**

**24.Rxb7** The rook captures the bishop on b7. Recorded reply: **24...Qxb7**.

**25.Nf6+** Check restricts Black to 3 legal replies here. The changed line means the bishop on g2 attacks the queen on b7. Recorded reply: **25...Bxf6**.

**26.Bxb7** The bishop captures the queen on b7.

At the end, nominal material is White 24 / Black 21 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +4. Activity and king safety still affect the evaluation.

**CHECKPOINT**

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +4: the balance goes from -1 to +3. Count promotions and every recapture, not just the first gain.

**CARRY THE IDEA INTO YOUR GAMES**

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

**WHAT THIS POSITION TEACHES**

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

**HOW TO LOOK**

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on g8. Look for a defender that can be displaced or overloaded.
