

Discovered attacks

WHAT THIS POSITION TEACHES

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on e2. Geometrically undefended: bishop on b6. Check for tactical protection.

Previous move: 43.Ke2. Gold borders mark its start and finish.

43...Ng1+ 44. Kd2 Rxf2+ 45. Bxf2 h1=Q

43...Ng1+ Check restricts White to 6 legal replies here. The changed line means the rook on f8 attacks the rook on f2. Recorded reply: **44.Kd2**.

44...Rxf2+ Check restricts White to 8 legal replies here. From f2 it attacks king on d2 and rook on f1. Recorded reply:
45.Bxf2.

45...h1=Q The pawn moves from h2 to h1. The pawn becomes a queen.

At the end, nominal material is White 14 / Black 17 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +8. Activity and king safety still affect the evaluation.

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +8: the balance goes from -5 to +3. Count promotions and every recapture, not just the first gain.

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.
