Discovered attacks

Black to move

Previous move: 60.Kg7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

60...gxh4+ 61. Kh6 hxg3

60...gxh4+ Check restricts White to 3 legal replies here. The changed line means the rook on g4 attacks the king on g7. Recorded reply: **61.Kh6**.

61...hxg3 The pawn captures the pawn on g3.

At the end, nominal material is White 6 / Black 7 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +2. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +2: the balance goes from -1 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on g7. Geometrically undefended: rook on e3. Check for tactical protection.
