

Discovered attacks: White, move 30

Discovered attacks

White to move

Previous move: 29...Qb5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

30. Nd6 Bxd6 31. Bxg6

30.Nd6 The knight moves from e4 to d6. From d6 it attacks queen on b5 and rook on c8. Recorded reply: **30...Bxd6**.

31.Bxg6 The bishop captures the bishop on g6.

At the end, nominal material is White 29 / Black 30 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +0. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +0: the balance goes from -1 to -1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on g8. Geometrically undefended: queen on b5. Check for tactical protection.
