Discovered attacks

Black to move

Previous move: 15.Nxd5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

15...Nxd5 16. Qxd5 Bxd4

15...Nxd5 The knight captures the knight on d5. Recorded reply: **16.Qxd5**.

16...Bxd4 The bishop captures the pawn on d4.

At the end, nominal material is White 30 / Black 30 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +1. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +1**: the balance goes from -1 to +0. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on e1. Geometrically undefended: rook on h1 and rook on a1. Check for tactical protection.
