

Discovered attacks: White, move 24

Discovered attacks

White to move

Previous move: 23...Rxd3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

24. Rxd3 Bxh1 25. hxg6 fxg6 26. Qxh1

24.Rxd3 The rook captures the rook on d3. Recorded reply: **24...Bxh1**.

25.hxg6 The pawn captures the pawn on g6. The changed line means the queen on h6 attacks the bishop on h1. Recorded reply: **25...fxg6**.

26.Qxh1 The queen captures the bishop on h1.

At the end, nominal material is White 21 / Black 20 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +3: the balance goes from -2 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Choose the blocker's destination carefully. An uncovered attack may fail if the opponent has a stronger check or can capture the slider.

WHAT THIS POSITION TEACHES

Moving a blocker can uncover a rook, bishop, or queen attack. The moving piece may create a second threat, giving the defender too many problems at once.

HOW TO LOOK

Find a friendly piece between a slider and an enemy target, then inspect its forcing moves and captures.

The defending king is on g8. Geometrically undefended: queen on e7 and bishop on c6. Check for tactical protection.
