

Discovered checks: White, move 9

Discovered checks

White to move

Previous move: 8...dxc4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

9. Nc6+ Be6 10. Nxd8

9.Nc6+ Check restricts Black to 5 legal replies here. From c6 it attacks queen on d8 and knight on b8. Recorded reply: **9...Be6**.

10.Nxd8 The knight captures the queen on d8.

At the end, nominal material is White 32 / Black 25 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +9. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +9: the balance goes from -2 to +7. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The checking line must actually be clear, and moving the blocker must not expose your own king to check.

WHAT THIS POSITION TEACHES

A discovered check opens a line toward the king by moving the blocking piece. Because check must be answered, the moving piece may gain a free tempo for another threat.

HOW TO LOOK

Trace the hidden checking line first. Then examine where the blocker can move to attack or capture something important.

The defending king is on e8. Geometrically undefended: rook on h8 and rook on a8. Check for tactical protection.
