

Discovered checks: White, move 24

Discovered checks

White to move

Previous move: 23...Bxd5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

24. cxd5+ Kd8 25. Rxb8+

24.cxd5+ Check restricts Black to 2 legal replies here. The changed line means the queen on c3 attacks the king on c7. Recorded reply: **24...Kd8**.

25.Rxb8+ Check restricts Black to 2 legal replies here. The move also takes the rook on b8.

At the end, nominal material is White 25 / Black 24 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +8. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer: +8:** the balance goes from -7 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The checking line must actually be clear, and moving the blocker must not expose your own king to check.

WHAT THIS POSITION TEACHES

A discovered check opens a line toward the king by moving the blocking piece. Because check must be answered, the moving piece may gain a free tempo for another threat.

HOW TO LOOK

Trace the hidden checking line first. Then examine where the blocker can move to attack or capture something important.

The defending king is on c7. Geometrically undefended: bishop on d5. Check for tactical protection.
