

Discovered checks: Black, move 25

Discovered checks

Black to move

Previous move: 25.Ne3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

25...Nf3+ 26. Kh1 Nd4+ 27. Nxd5 Nxe2

25...Nf3+ Check restricts White to 3 legal replies here. Recorded reply: **26.Kh1**.

26...Nd4+ Check restricts White to 5 legal replies here. The changed line means the bishop on d5 attacks the king on h1. Recorded reply: **27.Nxd5**.

27...Nxe2 The knight captures the queen on e2.

At the end, nominal material is White 15 / Black 19 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +6. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +6: the balance goes from -2 to +4. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The checking line must actually be clear, and moving the blocker must not expose your own king to check.

WHAT THIS POSITION TEACHES

A discovered check opens a line toward the king by moving the blocking piece. Because check must be answered, the moving piece may gain a free tempo for another threat.

HOW TO LOOK

Trace the hidden checking line first. Then examine where the blocker can move to attack or capture something important.

The defending king is on g1. Geometrically undefended: queen on e2. Check for tactical protection.
