

## Discovered checks

## WHAT THIS POSITION TEACHES

Trace the hidden checking line first. Then examine where the blocker can move to attack or capture something important.

The defending king is on h7. Look for a defender that can be displaced or overloaded.

**WORKED CONTINUATION - COVER THIS SECTION FIRST**

**24.Bf8+** Check restricts Black to 1 legal reply here. The changed line means the rook on h1 attacks the king on h7. Recorded reply: **24...Bh4**.

The line ends in checkmate against the king on h7. Material gain is unnecessary once no legal defense exists.

Which piece delivers the final check, and why can the defender not continue? **Answer:** Rook on h4. The king is in check and the position has zero legal replies.

The checking line must actually be clear, and moving the blocker must not expose your own king to check.
