

Discovered checks: Black, move 52

Discovered checks

Black to move

Previous move: 52.Kxf6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

52...e4+ 53. Kf7 e3

52...e4+ Check restricts White to 4 legal replies here. The changed line means the bishop on b2 attacks the king on f6. Recorded reply: **53.Kf7**.

53...e3 The pawn moves from e4 to e3.

At the end, nominal material is White 8 / Black 8 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +0. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +0:** the balance goes from +0 to +0. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The checking line must actually be clear, and moving the blocker must not expose your own king to check.

WHAT THIS POSITION TEACHES

A discovered check opens a line toward the king by moving the blocking piece. Because check must be answered, the moving piece may gain a free tempo for another threat.

HOW TO LOOK

Trace the hidden checking line first. Then examine where the blocker can move to attack or capture something important.

The defending king is on f6. Look for a defender that can be displaced or overloaded.
