

Discovered checks: Black, move 20

Discovered checks

Black to move

Previous move: 20.g3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

20...Bxe2 21. Kxe2 Bc5+ 22. Kf3 Bxa3

20...Bxe2 The bishop captures the bishop on e2. Recorded reply: **21.Kxe2**.

21...Bc5+ Check restricts White to 6 legal replies here. The changed line means the rook on e8 attacks the king on e2. Recorded reply: **22.Kf3**.

22...Bxa3 The bishop captures the queen on a3.

At the end, nominal material is White 14 / Black 19 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +9. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +9: the balance goes from -4 to +5. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

The checking line must actually be clear, and moving the blocker must not expose your own king to check.

WHAT THIS POSITION TEACHES

A discovered check opens a line toward the king by moving the blocking piece. Because check must be answered, the moving piece may gain a free tempo for another threat.

HOW TO LOOK

Trace the hidden checking line first. Then examine where the blocker can move to attack or capture something important.

The defending king is on e1. Geometrically undefended: rook on h1 and rook on a1. Check for tactical protection.
